## Criteria For Success:

Justin wants to feel informed about wait times and like he is in more control of his meal times.

## Needs

- Accurate wait times
- Count of how many customers are in line

## Wants

- Updates on when his meal has been started
- A way to refund on the app
- An easy food pick up system

## Values

- Time efficiency
- Fresh food

## Fears

- The times displayed will be inaccurate, resulting in not only confusion, but longer wait times

# Ben Dover

age: 22  
residence: Cayce, South Carolina  
education: UofSC Computer Science Major (Senior)  
occupation: Student/Internship at Microsoft  
marital status: Single

*"Grubhub at Russel makes my cocky sad"*

Ben's parents provide him \$1000 in meal plan dollars, he uses Russel as a primary source of food

## Comfort With Technology

## Criteria For Success:

Ben wants accurate times for when his food is ready on the Grubhub app.

## Needs

- The ability to cancel orders easier
- Accurate wait times based on order

## Values

- Accurate orders
- Time efficiency

## Wants

- Accurate wait times
- Correct and fresh food

## Fears

- Missing class due to waiting on food based on inaccurate wait times
- Wasting meal plan dollars because his order couldn't be canceled

## Laura Jones

age: 31  
residence: Columbia, South Carolina  
education: Highschool GED  
occupation: Chik-Fil-A worker  
marital status: single

*"Sometimes I still think I'm a kid who doesn't have to worry about their job"*

Laura spends most of her day yelling Chik-Fil-A order numbers to college students

### Comfort With Technology

#### INTERNET

#### SOFTWARE

#### MOBILE APPS

#### SOCIAL NETWORK

### Criteria For Success:

Laura needs her job to be smooth and easy so she doesn't have to stress

### Needs

- A stress free work environment
- An easier way to get orders out to students

### Values

- Reliability of the app
- Feedback on what they can improve on

### Wants

- Prioritization on meals that are easy to make
- The option to order food for a time in the future to reduce order load

### Fears

- Being yelled at by angry students
- Failing to get out an order quickly
- Inconsistent user interface
- Lack of feedback options

## Jenna Hudson

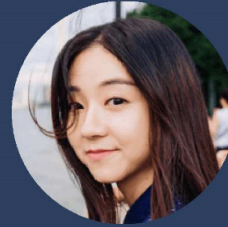

age: 18

residence: Columbia, SC

education: First-year at UofSC, business major

occupation: Student

marital status: Single

### *How can I keep my schedule managed if I can't plan my lunch?*

Jenna likes to grab a quick coffee between classes daily, to help her stay focused. The grubhub app can make it a struggle sometimes.

#### Comfort With Technology

##### INTERNET

##### SOFTWARE

##### MOBILE APPS

##### SOCIAL NETWORK

#### Criteria For Success:

Jenna needs assurance that when the app says her order is ready, it's actually ready.

#### Needs

- Correct wait times
- Better algorithm to inform users of completed orders

#### Values

- Consistency
- User care

#### Wants

- Refunds on poor orders
- Ways to leave feedback on app
- Food completed by order time

#### Fears

- Getting late to class due to problems with a grubhub order
- Having to wait 30 mins more than planned for food, due to her order ticket being skipped
